New Submission

Regular MNE contributors

are expected to file a 2-page pdf summary of their work, a short 200-words summary and a short bio. A single author can submit maximum one oral communication and one poster communication. There can be two presenting authors, so as to ensure that, in case of acceptance, the paper will be presented at the MNE 2023 conference even if the submitting author has an issue. This does not apply to students taking part in the best poster and best oral communication competitions, who need to present their work by themselves to be eligible. The abstract will be reviewed and scored by the MNE board of reviewers, then accepted or rejected. If accepted, the MNE 2023 program chairs will orient the abstract towards oral or poster presentation. The abstract will be officially integrated into MNE's program 2023 upon registration of at least one of the two presenting author (deadline July 5th).

Invited speakers (Plenary, Track Keynote, Track Invited)

are expected to file a 2-page pdf summary of their work, a short 200-words summary and a short bio. There will be no strict abstract review but a basic quality check.

Lecturers for the tutorials

are expected to file a 200-word summary of their lecture, and a short bio. They are invited to complement this with a more extended 2-page pdf description. There will be no strict abstract review but a basic quality check.

Exhibitors can upload files as pdfs,

that will be used by the MNE staff for preparing their booth and/or communication campaign.
